## F. SUMMARY / RECOMMENDATION

### Summary/Recommendation

This ASP CACD investigator has determined that there is NOT a preponderance of evidence to make a true finding for the allegation of sexual contact against Bernie Hoffman regarding Angela Ondrisek. There is not a preponderance of evidence to support the allegations based on Angela denying she was sexually abused. Bernie Hoffman also denies all allegations made against him. Therefore, there is also not a preponderance of evidence to support the allegations of failure to protect against the parents, Richard and Debra Ondrisek.

## G. INVESTIGATIVE FINDING

### Overall Findings

Unsubstantiated

No  
preponderance  
of evidence  
of failure to  
protect against  
the parents.
